

Your Bupa Liver Health checklist

How to get the most out of your health check

In choosing a Bupa health check you are taking an important step towards safeguarding your future health and wellbeing.

This checklist will ensure that you are fully prepared for your Bupa Liver Health check - please take a few moments to read it through and don't hesitate to contact us if you have any queries.

We look forward to welcoming you to the centre and will do everything we can to ensure that you are able to relax and enjoy the time that you are devoting specifically to your health.

Before your appointment

Your health check questionnaire

Please complete and submit your health check questionnaire online. Alternatively, you may complete the enclosed questionnaire and bring it with you on the day of your appointment. This forms the basis for your discussion with the Bupa doctor, and the information you provide will help us to understand and address your individual needs.

Rescheduling or cancelling your appointment

If you change or cancel your booking within the five working day period before your appointment a charge will be made. The charge will be £75 up to 24 hours before the time of your appointment. If you cancel or reschedule within the 24 hours before your appointment, or fail to attend on the day, the full appointment fee will be payable.

If your appointment is being paid for by your employer or has been pre-paid, different terms may apply.

On the day of your visit to us

If you are taking any medication please continue to do so.

Please do not consume a heavy meal for two hours before your appointment as this can affect the accuracy of the scan.

If you have not already completed and submitted your questionnaire online, please ensure that you bring your completed questionnaire with you to your appointment.

When you arrive at the centre you will be greeted by our receptionist who will check our record of your address and your GP's address.

The Bupa Liver Health check is not suitable for individuals who are, or may be, pregnant or have an implantable device such as a pacemaker.

There may be a small proportion of patients on whom it may prove difficult to make an accurate assessment. In this case your clinician will discuss whether alternative means of assessing your liver health may be appropriate.

Your health check

So that you can be sure of what to expect from your visit, we have listed below the range of tests and investigations that we will be carrying out during your Bupa Liver Health check. These are in addition to your consultation and examination with the doctor.

The Bupa Liver Health check includes the following tests:

- Blood biochemistry profile
- Blood haematology profile
- FibroScan™ of the liver.

Please read the enclosed information sheet about your Liver Health check.

Please don't hesitate to call your centre if you have any questions or concerns
