

Sexual Health GP Complete

For people with symptoms

Offering a full STI check, our Sexual Health GP Complete is ideal for those who want a comprehensive overview of their sexual health. You'll receive an appropriate physical examination and the chance to discuss any symptoms of concern with one of our friendly GPs.

In the event of any positive results, we'll be there every step of the way with a follow-up GP appointment and 24/7 access to support through our Anytime HealthLine.

What's included:

- ✓ Time with a Bupa GP to discuss the tests and outcomes
- ✓ A clinically relevant examination
- ✓ A follow-up with a Bupa GP if any results are positive where they may provide treatment or onward referral
- ✓ One month's access to our 24/7 Anytime HealthLine after a positive test
- ✓ Assistance with partner notification can be provided if appropriate

We'll test for:

- ✓ Chlamydia
- ✓ Gonorrhoea
- ✓ HIV
- ✓ Syphilis
- ✓ Hepatitis B
- ✓ Hepatitis C
- ✓ Mycoplasma
- ✓ Ureaplasma
- ✓ Herpes

What happens at the appointment?

1. Before the appointment you'll receive a link to a pre-appointment questionnaire. Please complete this as accurately as you can.

2. When you arrive at our centre, our team will welcome you and guide you to where to wait for your appointment.

3. You'll spend time with one of our GPs for a consultation and full examination.

4. If any of your results are positive, you will be booked in for a consultation with one of our GPs where they can recommend treatment options or arrange for an onward referral.
