Introduction

Your complete Directory of Hospitals and guide to arranging treatment

One of the key benefits of a **your choice** policy is knowing you can choose where to receive private treatment from a wide range of hospitals throughout the U.K.

This Directory explains how to select a suitable hospital for your level of cover when you require treatment. Use it when you visit your doctor or specialist to help choose the most appropriate hospital for your treatment.

Listed are those private hospitals with whom we have developed partnerships, plus selected NHS hospitals with dedicated Private Patient Units (PPUs) or private services.

This Directory has been carefully compiled to offer you a choice of hospitals providing high standards of comfort and service. However, it does not comment on the quality of the care you might expect to receive whilst a patient.

Details are current as at the date of issue but CS Healthcare reserve the right to make any changes to the list by adding hospitals or by removing them to reflect legitimate cost increases or if a hospital fails in the opinion of the Society to meet acceptable standards of care, closes or becomes insolvent.

Which hospitals are available to you?

This Directory contains Partnership hospitals, Extended hospitals and Diagnostic and Scanning Units.

Partnership hospitals

These include a wide range of private and NHS hospitals from across the whole of the U.K. There is also a selection of London hospitals that specialise in cardiac and neurology services. These hospitals have been recognised as having reasonable charges and a wide range of facilities suitable for the Partnership hospital list. If you choose the Partnership level of cover, you are only able to select a hospital from this list.

Extended hospitals

For those who wish to receive their treatment from a selection of more expensive hospitals, the Extended hospital list may be more appropriate. If you choose the Extended level of cover, you will be able to select hospitals from both the Partnership and Extended lists.

Cancer Care

If you require cancer treatment and care, you may get referred to one of the many Cancer Treatment Centres (Oncology Centres) available through our Partnership and Extended Hospital list. Another service available to you is Healthcare at Home, who specialise in delivering cancer treatments like chemotherapy at home in conjunction with your supervising Consultant. For further information on making a cancer claim please call the Claims Helpline on 020 8410 0440^ and ask to speak to a Managed Care Adviser.

Choosing non-listed hospitals

In the event that you choose to use a hospital not on our list or in an Extended hospital instead of one from the Partnership list, we will pay up to the costs of an admission for a procedure or medical case in a hospital which would have been available to you. Any additional costs will be your responsibility, this benefit is referred to as the 'out of band benefit'.

However, if you need to use a hospital which does not appear on the list because it is the only one that offers the necessary treatment you require, we will meet the cost of your eligible treatment subject to pre-authorisation.

A guide to the hospital groups

CS Healthcare works in partnership with many of the major hospital providers across the UK, giving you access to over 300 private hospitals. BMI Healthcare, Spire Healthcare, Ramsay Healthcare and Nuffield Hospitals all offer a national network of private hospitals many of which are included in our Directory.

HCA hospitals should only be considered by members who have Extended cover.

NHS and NHS Private Patient Units (PPUs)

PPUs are dedicated private wards or wings within an NHS hospital. Some NHS hospitals offer private services but do not necessarily have a dedicated private ward. However, these give members access to very specialised centres and care is often in a side room.

How to make a claim

If you need to make a claim, or would like to discuss a certain hospital with one of our advisers, please call our **Claims Helpline on 020 8410 0440**[^].

[^] Calls to CS Healthcare will be recorded and may be monitored for training, quality assurance purposes and/or prevention and detection of crime.
