

Module overview: Cancer

Healthcare has never been more important. And as an employer, you have more responsibility than ever before. We've created the Academy to provide clinical insights and expertise to help organisations define and deliver their wellbeing strategies. We're here to help you build a more resilient, happier and healthier workplace where everyone can thrive.

The Academy provides:

Exclusive access to clinical insights on healthcare trends in society and in the workplace.

Expert thinking from leading Bupa clinical and healthcare experts with frontline experience.

Opportunity to collaborate with Bupa clinicians and wellbeing experts to build actionable plans from health awareness campaigns to people policies.

Plus, you'll get resources to take away and share with your colleagues.

Cancer is a growing health worry in the workplace

The risk of cancer is increasing. And there's a high chance someone in your workforce will be affected, now or in the future. Our Cancer Academy module is designed to **support the people in your organisation, and give you the tools to help them.**

More than
127,000

people of working age are diagnosed with cancer in the UK every year.¹

More than
3 Million

people missed their screening appointments in England during the COVID-19 pandemic.²

of employed people
87%

living with cancer said it was important for them to continue working after their diagnosis.³

of employed people
36%

of line managers feel well equipped to support employees with cancer.³

What you can expect from your Cancer Academy event

- Insights and trends on cancer to inform your health and wellbeing strategy.
- Expertise and best practice to raise awareness of small steps to reduce the risk of cancer and spot symptoms sooner.
- Resources to help your people access the best care quickly and conveniently, and to understand the treatment journey.
- Tools to help you better support colleagues with cancer and upskill your managers.
- The knowledge to plan a refreshed health awareness campaign as prevention is better than cure.
