¹**Check your Facility Access to see if the Guided Care option has been chosen:**

- **If the Guided Care option has not been chosen** – the benefit limit is for eligible treatment on your core health insurance when you use a Bupa recognised consultant or therapist or complementary medicine practitioner and a healthcare facility within the Bupa network that applies to your policy.
- **If the Guided Care option has been chosen** – the benefit limit is for eligible treatment on your core health insurance when you use a consultant in our list of Open Referral Network consultants or a Bupa recognised therapist or complementary medicine practitioner, and a healthcare facility within our participating facility network.

For Coaching support for neurodivergent conditions, you must use the neurodiversity coach we guide you to.

²**Check your Facility Access to see if the Guided Care option has been chosen:**

- **If the Guided Care option has not been chosen** – when we say benefits are paid in full, this is for eligible treatment on your core health insurance when you use a healthcare facility within your chosen Bupa network using a Bupa recognised consultant who agrees to charge within Bupa limits (a fee-assured consultant) or a Bupa recognised complementary medicine practitioner.
- **If the Guided Care option has been chosen** – when we say benefits are paid in full, this is for eligible treatment on your core health insurance when you use a healthcare facility within our Participating facility network using a consultant in our list of Open Referral Network consultants who agrees to charge within Bupa limits (a fee-assured consultant) or a Bupa recognised complementary medicine practitioner.

³**With the Guided Care option:** participating facility is the network of recognised facilities for which you are covered under your benefits; and the Open Referral service applies to your benefits. This means that you must be referred to a consultant or to treatment either by our Direct Access service (if it is available for your condition), or by obtaining an open referral letter from a GP. This is a referral that details the care you need but is not addressed to a named consultant or healthcare practitioner. You then must call us to pre-authorise your consultation or treatment and use a consultant in our list of Open Referral Network consultants that applies to your benefits, or a Bupa recognised practitioner (as relevant), from the choice we give you. There are no extra bills for treatment provided by the surgeons or anaesthetists we offer you. Excess and benefit limits still apply. The Open Referral service doesn't apply to children aged 17 or under.

*Any onward referrals for consultations, tests or treatment are subject to the benefits and exclusions of your cover. For example, if your cover excludes conditions you had before your cover started, we may ask for further information from your GP. Please check your guide and certificate for further details or contact us to check your eligibility.
